All the staff of **Langtang Ri Trekking & Expedition** is happy to inform you about our **support** on **Human Overall Management Educational Society (HOMES Nepal)**.

The Human Overall Management Education Society (HOMES-Nepal) is a non-profit and non-government organization. It is registered under the Organization Act 2034 B.S.at the District Administration Office, Kathmandu, Nepal. It is also affiliated with the Social Welfare Council.

In the 21st Century, education is deemed to be a fundamental tool and a right for millions of people around the world. Unfortunately, this is not the case in Nepal, where the literacy rate of the Nepali people is below 54%. This is due to the fact that many young people do not have access to the education that they deserve, while others, for social, political and cultural reasons, such as those belonging to lower castes, are more affected.

Our awareness of this situation motivated our team members to inaugurate a project which aims to provide a formal and vocational education for all classes and castes, and to promote equality. In April 2008 HOMES-Nepal was formed.

From April 2008, we have managed to have 50 students participate in the project. Thirty of these students are from remote areas of Gorkha District and 20 are from the Kathmandu Valley. Our project supports each student's education which includes: tuition fees, school uniforms, examination fees, and stationery. All the students live at home with their families and attend a school most convenient to them.

We are proud to report that in our first year into the project, all the children have successfully completed their academic studies, the majority of them being promoted to higher level classes. All students have expressed their enthusiasm to continue their education. We shall remain committed to supporting these students. From the beginning of the 2009 academic year, we have managed to add a further five students.
